ARTIST'S STATEMENT

I am a "Traditionalist" in my art, so my work reflects what I see. Some of the artists whose work has influenced mine, and whom I greatly admire, are: -

J MW Turner (English)

Arthur Streeton (Australian)

JM Waterhouse (English)

Rosa Bonheur (French)

Thomas Moran (American)

Ilya Repin (Ukrainian)

The art of these painters is extraordinarily beautiful, and a joy to view again and again, and for them I have great respect.

My paintings are mainly acrylic pieces on canvas, produced in my studio from my "plein air" field sketches. Each year, I travel, to obtain material for these sketches, and the trips I make, form some of my happiest painting memories. For example; to climb a hill and discover a great new scene for a landscape or seascape, and to sketch this scene with my ink and coloured pencils, gives me the greatest personal delight, and this delight, I believe, is echoed in my finished paintings.
