Danuta Rogula

....Inspired by the world around her, and never a camera far from hand, Danuta Rogula has always had an eye for beauty. Her vibrant personality and creative soul are evident in each of her paintings. "When I experience a scene in nature that has really touched me, the atmosphere, the beauty of light or just the tranquility, I want to share that with others through my painting."

....Danuta was born in Poland in 1958. She graduated with a Master's Degree in Interior Design and Industrial Project in 1983 from the Academy of Fine Arts in Wroclaw. With the birth of her two children, Danuta re-discovered painting. Danuta is a member of the [Federation of Canadian Artists](#). In 2009 Danuta established her own gallery in Britannia Beach, www.theoldcustomshousegallery.com, she restored a building, that is almost 100 years old by herself, (yes it has a new roof now).

"Residing in Britannia Beach gives me ample access to the most inspirational landscape settings. From the beaches and the bays of Howe Sound, through the meadows carpeted with flowers to the dramatic Rocky Mountains, these are the majestic vistas that stimulate the soul and imagination."

....Although traditionally known for her landscapes and nature scenes, her new encaustic series are creating a buzz in Vancouver, British Columbia. "I enjoy exploring different mediums and styles. It is stimulating to switch back and forth between a variety of tools, sizes and motifs. One day it may be an impressionistic image of the forest, done with a palette knife. Another day it may be a realistic portrait of a pet, done with a small brush, or a large metaphysical vision out of this world painted with a big roller." Reviving an ancient technique, Danuta creates her encaustic works by painting with molten bees wax. Oil paints are mixed in to lend their tints, and the result is spectacular. Her artwork has been showcased in galleries across Europe and North America.
