ARTIST STATEMENT

Sheila Neufeld was born in Saskatoon, Saskatchewan and moved to Vancouver in 1992. She studied art at various institutes including Langara College where she completed the Fine Arts Diploma program in 2004. Neufeld's atmospheric compositions rich in color, texture and movement express her passionate personality and have a depth that must be seen to be truly appreciated. Designed to be a sensory experience, her artwork is fluid and expressive evoking a dynamic emotional response. Her work can be found in corporate and private collections across Canada and the USA.

"I create out of a deep desire to express the light and love which permeates every living being. Life is so much more expansive than we can ever imagine and when we sit in the stillness of the heart we can feel this truth. Rather than focusing on a specific subject the Art that is created through me is about the translation of inner states of awareness and the illumination of the grace and fluidity of life. Through multiple translucent layers of color, texture and various mediums I explore the bold and the subtle, the metaphysical, and the ever unfolding mystery of life. My wish is that my Art inspires emotion, imagination and can create a conversation about our connection to our own hearts and our beautiful world around us.
